

REMEMBER ALL THOSE GOOD TIMES

[verse 1]

When the storms of the heart blow down on us
And stir up hurtful words we shouldn't have said
And the treasured ties that bind us come unraveled
And we're scared the love we shared may be dead

[verse 2]

In those moments let's remember all those good times
The smiles and the laughs that we knew
Those little things that carry us towards heaven
If we remember all those good times we'll come through

[chorus]

Goofin' at the lake
Our food-fight wedding cake
Four-wheelin' in the pick-up truck
Getting stuck deep in the muck

Ice-fishing in the freezing hut
Playing with our old mutt
Pillow-fighting on the bed
Leading and being led

Dancing and playing pool
Oh, just acting like a fool
Dinner with the folks
Laughing at the jokes

Jumping in to lend a hand
Oh, oh, sticking to our stand
Raising up the kids
Raising up the kids

[verse 3]

We heal when we remember all those good times
The joys that make us one instead of two
Your love makes my heart feel the magic
And I'll bet you'd say the same is true for you

[repeat chorus]

[verse 4]

Remember to remember all those good times
Just let the bad scenes run on through
It's a wonderful life when we see clearly
With you loving me, me loving you

(coda)

There'll never be another, you are my only lover
You're everything to me, you're all that will ever be
Darling I love you with a love that's ever new
Remember all those good times we've gone through
Remember all those good times they were true
