Eight-year-old Princess Aylin is sailing with her mother, Princess Aylon, to London to see her grandfather, King Alek, when they're waylaid by the evil Lord Throop, sent by the treacherous Lord Mordant to kill them so he can usurp the throne after poisoning King Alek. Aylin's mother is killed while Aylin escapes into the forest. The head injury she's suffered has robbed her of her memory but given her the ability to communicate with, and obtain the help of, wild animals through her extraordinary singing.

After five long years alone in the woods where her mysterious presence has made people speak of the Sorceress of the Woods who can cast spells with her singing, she's captured by poachers but saved from them by two teenagers from an orphanage, and she enters the orphanage, taking the name Robyn. Her beautiful singing voice makes them form a choir and they're invited to sing for the new master of their lands, Lord Throop. Aylin's incredible voice makes Throop think she could be the young princess he was sure he killed, and the royal birthmark she bears confirms his fears. He tries to kill her, but she escapes and with her orphan friends flees to the forest where they're pursued relentlessly, only her secret ability with the animals keeping them safe.

King Mordant learns that Throop didn't kill the princess and was keeping the secret from him and Throop pays with his head. Mordant sends the Viking Vingaron to capture the princess and bring her to him.

Aylin and her friends leave the forest and form a traveling show to perform in the villages, her singing a highlight. The children come to the attention of Lady MacSanvale who asks that they come to Castle Carn to perform for her husband, the lord of the region. Vingaron captures them before they can perform for Lord and Lady MacSanvale, but Aylin's power allows them to all to get away. But Vingaron captures Aylin once again, her bravery letting her friends escape.

They seek the help of Lord MacSanvale, and when Aylin escapes Vingaron once again and reaches Castle Carn, Lord MacSanvale realizes she is Princess Aylin, heir to the throne, vowing to fight the usurper King Mordant to make Aylin queen.

The forces of Lord MacSanvale and the other northern barons are no match for King Mordant's troops. But Aylin's secret powers – only her orphan friends knowing of them – route the king's forces and Aylin is crowned Queen of the Realm.

In her quarters alone with her friends, Jack addresses her as “Your majesty, Queen Aylin,” and Robyn laughs and says, “Come on, you know who I am.” She tells them they must stay and help her as she can’t do this by herself, and they all repeat their vow, “Together, always for each other.”
